

Providing Safety and Security with Personal Emergency Response Systems

Jewish Family Home Care along with Guardian is a recognized leader in Personal Emergency Response Systems (PERS) and monitored Medication Dispensers. At the time of an emergency, a Care Center Representative assesses your situation and calls for the appropriate help. Most importantly, we remain in communication to confirm that help has arrived, giving you the peace of mind you need at all times .

Our comprehensive lineup of systems all offer a water-resistant pendant and battery backup in the event of a power outage. Your Jewish Family Home Care representative will help you select the product that best meets your individual needs.
